

The Osterville Village Library Update

Fall 2011

The Crown is Placed on the New Jewel of Osterville!

On September 14th, with many onlookers, the Cupola was placed on top of the new Osterville Library roof.

Later in this year, a Wianno Senior weathervane will be attached to the Cupola. This prominent feature is available to be a named opportunity.

News Flash!

We sold out our matching gift fund by the end of August! David and Missy McGraw, Pete and Nancy Buck and Carolyn Crossett Rowland combined to make \$90,000 in matching funds available. We matched donations of \$1000 and over received in July and August, allowing us to redeem the entire matching fund. That means a total donation of \$180,000.

Thanks to all our great supporters!

Many Cape Cod contractors and businesses have been working to build the new library. Here is a list of some of the contractors involved to date:

- Sullivan Engineering
- Peter Hansen Design
- Cape Cod Ready Mix
- Coastal Equipment Rentals
- Botello Lumber
- Shepley Wood Products
- Kitchen & Bath Design Unlimited
- Marvin Design Gallery
- All Cape Telecom
- Cape Cod Alarm
- C. C. Construction

As we move towards finishing the interior, other Cape Cod and local contractors will be selected.

**Interior tours are scheduled;
for time & date of tours contact
the library at 508-428-5757**

The Osterville Village Library is a private, non-profit corporation. We are not receiving any funds for the construction from any government entity. We do however receive slightly less than 40% of our operating expenses from the Town of Barnstable.

Private donations like yours are paying for **100%** of this library construction.
